EDUCATION

BACHELOR OF SCIENCE IN EDUCATION

Marian University, Fond du Lac, WI

FULLSTACK SOFTWARE DEVELOPER

UW-Parkside, Kenosha, WI

SKILLS

Languages

- Frontend - React, Tailwind CSS, Javascript, HTML5
- Backend - Python/Django, Node.js, Javascript
- Database - SQLite, PostgreSQL
- Tools - Git, Github, VSCode, Cursor
- Other - Responsive design, deployment, debugging and testing

Transferable skills

- Collaboration
- Communication
- Relationship building with customers
- Teamwork

SUMMARY

Versatile Fullstack Developer with a foundation in education and a passion for building intuitive, scalable web applications. Proven ability to lead cross-functional projects, solve complex problems, and deliver user-centric solutions using React, Python/Django, and PostgreSQL. I am looking to expand my languages and knowledge of software development to make an impact on a team.

EXPERIENCE

FULLSTACK SOFTWARE DEVELOPMENT

2025 - Present

UW-Parkside

- Projects
 - CRUD Book Review App – Full-stack app with React frontend, Python/Django backend, and SQLite database supporting secure CRUD operations.
 - Play2Learn App – Interactive math and anagram games built with React and Node.js; features scoring and progress tracking.
 - Portfolio Website – Responsive personal site showcasing projects and skills; deployed via Vercel.
 - Podcast Website – Multimedia site for hosting and streaming podcast episodes with audio playback functionality.
- Collaboration
 - Working with a small independent team of software developers to create apps and websites for others

CLASSROOM TEACHER

(2021-2023), (2023 - 2025)

Parkview Elementary School, Cedarburg, WI

Riverside Elementary School, Menomonee Falls, WI

- Created a classroom environment that incorporates investigation and reflection
- Implemented Google online tools to promote student engagement
- Utilized online learning apps and extensions to enhance student learning and collaboration
- Collected student data to monitor student achievement and created individual learning plans
- Designed lessons that were daily modeled and implemented multiple intelligence learning
- Analyzed curriculum to align with local and national school standards
- Fostered student curiosity through hands-on activities and field trips

MERCHANDISER

Johnson Brothers, Milwaukee, WI

(2023-Nov. 2023)

- Communicates daily with other merchandisers, salesman, and managers
- Organizes products to efficiently work in each store
- Managing time effectively to complete all tasks
- Provides excellent customer service to consumers
